

# LAURENCE CARL JAS A. CADAG

(+63) 9100534425 | laurencecadag1@gmail.com | gitlab.com/laurencecadag1 | linkedin.com/in/laurencecadag/

## TECHNICAL SKILLS

---

**Languages:** JavaScript, PHP, SQL, Node.js, HTML, CSS  
**Frameworks/Libraries:** Vue JS, Quasar, Laravel, Tailwind, Bootstrap, Express.js, EJS,  
**Tools:** Git, Gitlab/Github, Postman, VS Code, Pinia, CLI, XAMPP, MySQL

## WORK EXPERIENCE

---

**Full Stack Developer** **April 2023 – June 2023**  
*BoomUpp Corporation*

- Develop and maintain full-stack web application utilizing modern frameworks and technologies using Quasar, Laravel, and MySQL.
- Implement components and user interfaces using Quasar.
- Create API endpoints to provide communication between the front-end and back-end, ensuring data accuracy and consistency.

**IT Instructor** **April 2022 – May 2023**  
*Forbes College*

- Employ a variety of teaching methods, including lectures, hands-on activities, and project-based learning, to engage and inspire students to learn.
- Taught web development subjects such as HTML, CSS, JavaScript, PHP, and SQL, guiding students through the creation of responsive and dynamic web applications.

## PROJECTS

---

**Online Admission and Enrollment System** (Capstone) | Quasar, Laravel, MySQL

- Developed a full-stack web application that features online admission and enrollment for Forbes College.
- Implemented different modules used by Registrar, Program Heads, Cashier, IT Admin and Students.
- Implemented seamless communication between the frontend and backend through API calls on Laravel, enabling real-time data updates and interactions.

**Commercial** | JavaScript, FakeStore API, Tailwind

- Developed a fully functional ecommerce website that simulates an online shopping experience, utilizing JavaScript for the frontend development.
- Utilized the FakeStore API to fetch and display product data, enabling users to browse a variety of items across different categories.
- Integrated shopping cart functionality, allowing users to add products, update quantities, and proceed to checkout.

**Horizon Hoppers** | Javascript, Tailwind, EJS, Node JS, Vercel

- Developed a dynamic travel website that offers travel touring packages.
- Created multi-page dynamic rendering of elements, values, and interfaces for each page.
- Followed the ATOMIC design principle for easier customization of UI Elements.

## AWARDS & ACHIVEMENTS

---

**ACM International Collegiate Programming Contest Philippines - Southern Luzon**

- Champion | 2018

**Pacific Blue IT – Hack4Change**

- Agriculture Category | Silver Winner | 2019

EDUCATION

---

Forbes College | Legazpi City  
BS Information Technology

TRAININGS & CERTIFICATIONS

---

<b>Building on ICP Blockchain Workshop</b>	<b>Mar. 11, 2023</b>
<ul style="list-style-type: none"><li>• Participated in a comprehensive workshop focused on blockchain development with the ICP (Internet Computer Protocol) platform.</li><li>• Gained insights into the principles of decentralized applications and smart contract development on the ICP network.</li></ul>	
<b>Backend Web Development</b>	<b>Sept. 26 – Oct. 13, 2022</b>
<ul style="list-style-type: none"><li>• Completed an intensive training program of Bayan Academy focusing on backend web development technologies and methodologies.</li><li>• Gained hands-on experience in building robust and scalable server-side applications using Node.js, Express.js, and MongoDB.</li></ul>	
<b>Vue JS and Quasar Workshop</b>	<b>Jul. 19 – Aug. 3, 2021</b>
<ul style="list-style-type: none"><li>• Engaged in a practical workshop covering Quasar, a popular Vue.js framework for building responsive and performant web applications.</li><li>• Acquired skills in developing feature-rich front-end applications with Quasar's components and utilities.</li></ul>
